§ 6
Qualification of foreign nationals for admission to university studies
1. Pursuant to the CUE Senate’s Resolutions on recruitment to study programs, the qualification procedure for foreign nationals applying for admission to study programs at the CUE is carried out:
   1) Based on the results obtained and recorded in the secondary school-leaving examination certificate – in the case of full-time and part-time first-cycle studies and uniform Master’s studies;
   2) Based on the results of the entrance examination – in the case of full-time second-cycle studies;
   3) Based on the grade point average for first-cycle studies or uniform Master’s studies – in the case of part-time second-cycle studies.
2. Foreign nationals are admitted within a separate quota of places, determined by the Rector. The dates of recruiting foreign nationals for studies are set by the Rector, and announced on the University’s website before the recruitment begins.
3. In the event of the agreed admission quota not being filled, a foreign national, after submitting an application for admission to a study program, may be admitted pursuant to the Rector’s decision, provided that the qualification requirements determined by the University Admissions Committee are met.
4. Qualification is made by the University Admissions Committee. The qualification process is coordinated by the Teaching Department. In the case of recruitment for first-cycle studies and uniform Master’s studies, the University Admissions Committee will calculate the results of the “matura” (secondary school exit exam) individually in each case, and make the final decision on the number of points. The number of points determines the admittance of a foreign national for further qualification.
5. In order to enter the qualification procedure, a foreign national applying for admission to studies at the CUE is required to register in the Internet Candidate Recruitment system (IRK) available on the CUE website, pay the enrolment fee, and send copies of the following documents:
   1) Documents confirming education qualifications, referred to in § 3,
   2) A document certifying the knowledge of the language in which the studies will be conducted, referred to in § 4.,
   3) A supplement or other official document indicating the subjects/courses (if not indicated in the education document referred to in § 3) completed by the candidate:

      a) The secondary school that the candidate graduated from – in the case of recruitment for first-cycle studies or uniform Master’s studies,
      b) The university that the candidate has graduated from – in the case of qualification for second-cycle studies,

   9) Declaration of citizenship,
   10) The document on the basis of which the foreign national applies for exemption from fees (if applicable).
6. The candidate who is a foreign national is obliged to pay the enrolment fee in the amount specified in the applicable Regulation by the minister responsible for higher education, regarding university studies – for each study major/field of studies in which he or she applies for admission, in accordance with section 7.
7. The amount of the fee depends on the number of study majors/fields of study selected in the personal questionnaire. The amount of the enrolment fee paid by the candidate must be consistent with the number of selected study majors/fields of study. Otherwise, study majors/fields of study for which the fee has not been paid will not be taken into account in the recruitment process (in the case of paying insufficient fees, unpaid study majors/fields of study shall be the ones indicated by the candidate as second/third/etc. choices).
8. The enrolment fee is paid to the CUE bank account, the number of which is on the candidate’s individual account at the IRK.
9. The fee may be returned to the candidate only in the following cases:
   1) Where the candidate submits a written resignation from the recruitment process to the Education Department before the date of the preliminary qualification of candidates, provided in the recruitment calendar;
   2) When it is credited to the candidate’s account after the agreed qualification date,
   3) When study program in the given field fails to commence due to insufficient number of candidates.
10. The fee is non-refundable if the candidate is not qualified for the first year of studies in the given field.
11. After paying the enrolment fee, the Teaching Department verifies the submitted documents according to formal requirements. If the documents are accepted, the candidate passes to the next stage of recruitment.
12. In order to be enrolled on the list of students, it is necessary that the candidate must:
   1) Present the originals of the documents listed in section 5,
2) Present the document confirming the right to health insurance, referred to in § 2 point 4 – original and copy,

13. If it is not possible to obtain an administrative decision of the competent superintendent of education or the certificate referred to in section 12 point 4, in order to be enrolled on the list of students, the candidate can submit:
   1) In the case of enrolment in first-cycle studies – a certificate of submission, at the board of education, of the documents necessary to recognize a certificate or other document obtained abroad as confirming the eligibility to apply for admission to university studies,
   2) In the case of enrolment in second-cycle studies – a certificate of submission, at the relevant CUE Institute, of documents necessary for the recognition of the diploma or any other certificate of graduation abroad.
14. Failure to submit the documents referred to in section 12 point 4 within the prescribed deadline will be considered a resignation from studies, resulting in removal from the list of students by the competent Director of the Institute.
15. A student who is a foreign national may be admitted to study at the CUE under the procedure of transfer from another university, including from a foreign university. In this case, the foreign candidate is obliged to submit to the CUE the documents referred to in section 5. The Rector takes the decision about the admission. The Rector also determines the financial conditions for studying, within 14 days from the date on which the student is entered on the list of students at the CUE. In the event of any differences resulting from the curricula, the Director of the Institute specifies the conditions, manner and date of making up for those differences.

§ 7

Fees for educational services, material assistance, student internship costs
1. Foreign nationals taking up studies at the CUE pay fees for the educational services provided by the CUE on the terms and in the amount specified in separate Regulations by the CUE Rector.
